Summary

With a strong academic background in Computer Science and Engineering with a focus on Data Science, I am a final-year B.Tech student who has developed a robust skill set in Data Analytics, Machine Learning, and Data Science. I have demonstrated my capabilities in practical data analysis projects and am eager to leverage my knowledge and expertise in a professional Data Analyst role. My goal is to contribute effectively to dynamic organizations that value the power of data-driven insights in decision-making.

Education

JSS Academy of Technical Education, Noida   Nov. 2021 to Present

Bachelor of Technology in Computer Science and Engineering with specialization in Data Science

- CGPA: 7.5/10
- **Coursework:** Data Structures Algorithm, DBMS, Theory of Automata, Computer Organisation and Architecture, Data Analytics, and Computer Network

Projects

IPL Power BI Dashboard

- Developed a Power BI dashboard that proved to be an invaluable asset to sports enthusiasts, empowering a user to analyze IPL data and make data-driven decisions, resulting in an impressive 75,000 INR prize. [↗]

Super Store Sales Analysis

- Designed an interactive Power BI dashboard with time series analysis, enabling sales forecasting and data-driven insights, resulting in increased sales and enhanced business efficiency through actionable recommendations.[↗]

Data Professional Survey Analysis

- Conducted in-depth analysis of data professional survey responses, identifying key trends and insights to inform strategic decision-making and enhance industry understanding, resulting in actionable recommendations that contributed to the advancement of data professional practices and standards. [↗]

HR Analytics Dashboard

- Designed an interactive HR analytics dashboard to extract insights from employee demographics, performance, and turnover rate data, driving optimized HR strategies and maximizing revenue growth and profitability through actionable recommendations based on data-driven insights. [↗]

Skills

Data Analysis	Statistical Analysis	Power BI, Tableau	SQL, MySQL
Machine Learning	Critical Thinking	Python	Communication

Co-curricular

Entrepreneurship Development Cell
